The key to success of every magazine is the working relationship between its key editors, and those are our faculties and students. However our relationship with our team of editors is also vital because the organizational and presentation skills are important because we and our team have to deliver the final product, that has to look good, sometimes under tight deadlines and massive contents.

Galgotias University in association with Wipro technologies launches Adobe centre of excellence.

5/22/2018

Galgotias University in association with Wipro technologies launches Adobe centre of excellence.

As the world of education is moving towards latest technological trends, Galgotias University also shows its commitment to match the university curriculum with latest technology innovations and inventions. Keeping the students parallel with the current technology and market trends, Galgotias University inaugurated the Adobe Digital Technology Academy in collaboration with Wipro Technologies.

Joining hands with Wipro and Adobe in terms of Academic Excellence Centre, Galgotias University established Adobe Digital Technology Academy in which Adobe is offering two courses which will improve the employability of the students. Explaining about the courses, University describes that the two courses would be Digital Technology Course and Data Analysis (Reports and Analytics).

The University plans to roll the courses out for students across all disciplines.

Mr Vishwadeep, Vice President-Wipro Technologies, Mr Pandit, Director- Digital Marketing Specialist & Alliance Teams of Adobe, Mr Vikram Goyal, Recruitment Lead &ndash Global Campus Hiring, Wipro, Ms Garima Babbar, Head Programs - Adobe, Mr Dhruv Galgotia, CEO-Galgotias University, Dr Renu Luthra, VC-Galgotias University, Mr Jayasankar Variyar, PVC- Galgotias University and Ms Manisha Chaudhry, Director Placements- Galgotias University were present during the event.

Training on “Computer Technology” has been organized by Adobe India for faculty of School of Computing Science and Engineering, from 21st May to 24th May 2018.

5/22/2018

Training on "Computer Technology" has been organized by Adobe India for faculty of School of Computing Science and Engineering, from 21st May to 24th May 2018. The training is being delivered by Mr. Abu Khan, senior Trainers from Adobe Solution Partner. The faculty trained would be further training students, enhancing their competencies and employability skills.

The delegation of Chinese Universities visited Galgotias University. Indian and Chinese education systems were discussed.

5/11/2018

Galgotias Martial Arts team bagged total of 7 medals (1 Gold, 1 Silver and 5 bronze) in India Open Karate Championship 2018 held in Shimla(HP). A total of 17 states participated in this competition.

5/10/2018

Students of Galgotias University participated in a live debate organised by ABP News on the topic CONTEMPORARY POLITICAL ISSUES OF INDIA at ABP News Studio, Noida.

TEDx Galgotias University

4/23/2018

TEDx Galgotias University was organised for the second time in Galgotias. There were 5 speakers, the first was Dr Vikram Dutt who is a former civil servant and motivational speaker, he is disability expert, documentary film maker, inclusive and special education consultant, university teacher, journalist and feature writer and a sportsperson and qualified sports coach. The second speaker was Miss Priya Bhargava is Miss Wheelchair India 2015 beauty pageant winner and has also represented India at Miss World Wheelchair pageant. She is a motivational speaker, and educationist ,life coach and also a clinical depression survivor. The third speaker was Dr Khushbu Pandya who is an avid social media influencer, an author and an entrepreneur. She is the founder of the start-up called Konvophilia Communications. The fourth speaker was Miss Srishti Jain who is the Co-Founder of Feeding India, country's first ever, now largest youth-run organization fighting hunger, food waste and malnutrition. She is on the Board of Advisor of a Youth motivation and Professional-development NGO called World Youth Council. The last speaker was Mr Onkar Kishan Khullar who is popularly known as Digital Gandhi is India's First Cause Artist. He is an artist both creative and performing, authored 3 books and owner of 3 companies, a philosopher, storyteller, brand creator and cause consultant.

The event was graced with the presence of the CEO of Galgotias University Mr Dhruv Galgotia. The audience witness students from various departments like school of finance and commerce. The auditorium was jam packed and the cheering of the crowd showed how much they enjoyed the event. TEDx Galgotias University was organised by a group of students namely Sagar Kulshrestha, Varnika Benara, Apeksha Chauhan, Bakhtawar Parvez, Bhavesh Batra, Vishwash deep, Rahul Soni, Piyush Shahi, Aminesh Raja and was hosted by Vaibhav. Once again TEDx Galgotias University turned out to be a huge success.

One Week Faculty Development Programme on Nature Inspired Algorithms for Solving Complex Engg. Problems (FDP-NIASCEP'2018)

23rd -27th April, 2018

Metaheuristics refers to a high-level problem independent algorithmic framework that provides a set of guidelines or strategies to develop heuristic optimization algorithms. Past few decades have witnessed a significant increase in the popularity of these methods for solving complex and intractable problems that are otherwise difficult to solve by traditional exact methods. The prime objective of this workshop is to acquaint the participants with the basic concepts of Metaheuristics and their applications to real life problems arising in the field of science and engineering. The

workshop will also have hands on practical sessions to familiarize the participants with these topics. Resource persons who will deliver expert lectures are well known researchers of this field having a vast knowledge and experience about the challenges and usefulness of Metaheuristics.

STC on Soft Computing Techniques using MATLAB at Galgotias University.

2/19/2018

This training programme is specially designed for Engineering College and polytechnic teachers and will mainly deal with Artificial Intelligence and Optimization Programming using MATLAB and its various toolboxes.

The course aims:

- (i) Update the knowledge in the emerging and upcoming topics in the subject area.
- (ii) Make the teachers conversant with the Artificial Intelligence– and Optimization using MATLAB software, its toolboxes and its interface with hardware using dSpace. Course Contents: The programme will be designed around the following major topics.

o MATLAB and SIMULINK Programming
o Fuzzy Logic Neural Network and ANFIS Toolboxes
o GA and PSO
o Arduino and dSpace interface with MATLAB/SIMULINK .

International Conference of Transformation of Engineering Education ICTIEE 2018

1/10/2018

There was a International Conference of Transformation of Engineering Education held from 4-6th January²⁰¹⁸. I(Garima Gupta B.Tech CSE 3rd year) and Shourya Mehrotra B.Tech CSE Cloud Computing 2nd year were invited as student panel to give our and as a whole engineering student's perception to help reform the curriculum. We were supposed to represent Galgotias University in front of International Delegates. Mr Ashok Saxena was leading our session. Faculties from IIT's were also invited. This whole conference took place at Bennett University, Greater Noida. Our performance was appreciated by everyone present there.

The UIF Stanford Meet November 2017 Galgotias @ Stanford

12/21/2017

Out of the many perks of being a Faculty Champion with the UIF, one was the opportunity to visit the **d.school** at Stanford University and be part of a family of 350 fellows and faculty champions from 185 colleges and Universities across the planet.

The UIF team had planned a Silicon Valley meet at the **d.school** at Stanford University from November 16 till Nov 20. If the Bangalore meet in June was good, this was even better.

The meet saw 157 students alone from India with 5 faculty champions from various colleges and Universities across the length and breadth of the country like Ajay Kumar Garg Engg. College, Ghaziabad, JNUT, Kakinada, Siddharth Institute of Engineering and Technology, GIT - Belgaum, CMR Institute of Technology

US made its presence felt through participation of institutes like University of Wisconsin-Milwaukee, Michigan Tech, Indiana University & Purdue University, Indianapolis, University of Oklahoma, Wichita State University, University of Delaware University of Tulsa, University of Portland, Colorado School of Mines, Dalhousie University, Grand Valley State University, Florida Institute of Technology, University of Minnesota, University of Alabama Others participating were University of Technology Sydney, colleges from Columbia, Chile, Germany etc.

The first day was planned at the Google HQ at Mountain View. The fellows and the faculty champions were hosted by Frederick G Pferdt, Chief Innovation Evangelist. We started with a session on '**Building a culture of innovation**', and dived into moonshot thinking and prototyping to bring bold ideas to life. We also looked at what makes effective teams.

The next three days were planned at the d.school, at the University and was inclusive of several experiential workshops, inspiration talks by fellows and faculty champions, the Inspiration Walk, reflections, unconferencing, a Prototype Challenge and various designing activities - designing for inclusion, engagement etc . The workshops were conducted by Aleta Hayes, Professor at Stanford and the other by Dan Klein, also a Professor at Stanford and a TEDx speaker.

On the last day of the meet the faculty champions got together to discuss the outcome of the meet.

Workshop organized by the Galgotias Robotics Club (IRIS)

8/29/2017

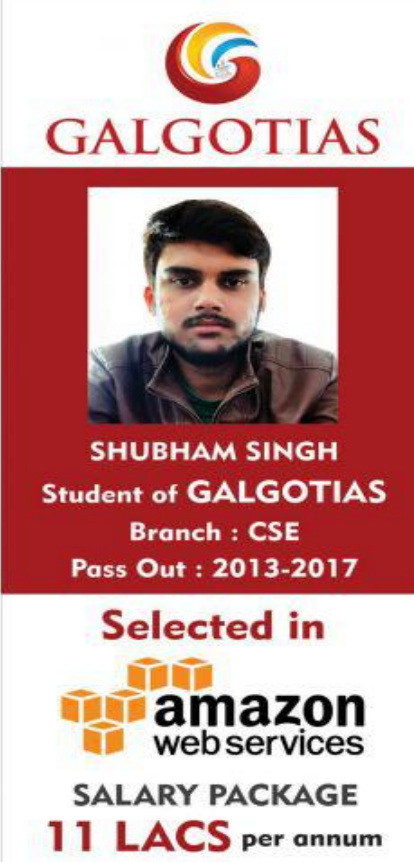

"Galgotias Technical Society, IRIS organized a workshop on 'INTRO TO BIT COIN AND BLOCKCHAIN' on 14th August. This peer-reviewed workshop was held to bring together all the interested scholars who study cryptographic currencies and also for those vigorous students who wanted to know about the most attention gained topic. The seminar was given by Venkatesh Gupta and Deepak Kumar, a third-year computer science students at Galgotias University. It dealt with the rudimentary concepts of bit coin and block chain which were further followed by an array of questions related to the pros and cons of bit coin.

The Chief Guest Harsh Chaudhary, a virtuoso in this field embarked the seminar by handling one on one questions put up by the students. Deepak Kumar gave a live demo on the blockchain. It permeated the essence regarding information essence and also ensured specific focus on not to endorse bit coin."
